AVOIDING 'THE UNDER-COUNT' & CENSUS ADVOCACY

JOB INFO & IMPORTANT CONTACTS
The U.S. Census is a decennial enumeration mandated by Article I, Section 2 of the United States Constitution, which states: "Representatives and direct Taxes shall be apportioned among the several States. The Bureau of the Census is part of the United States Department of Commerce."

Response to the census is required by law. Here's why your response is important:

- Occurs every 10 years
- Foundation of our Representative Democracy
- Distributes billions in Federal Funds to States and Municipalities
- Informs Small Business Decisions

The census provides vital information for you and your community. It determines how many representatives each state gets in Congress and is used to redraw district boundaries.

Redistricting counts are sent to the states by March 31, 2021.

Communities rely on census statistics to plan for a variety of resident needs including new roads, schools, and disaster preparation and emergency response.

Businesses use census data to determine where to open places to shop or offer other services.
Hard to Count Communities

The census misses some population groups at far greater rates: people experiencing homelessness, immigrants, people of color, low income households, and young children, among others. One can see clear contrast in roads and infrastructure by simply driving through a 'hard to count' community and one that is not. As a simple solution to thwarting one aspect of an undercount members of HTC’s must begin to not only be counted but apply for jobs as enumerators. Who can better ensure an accurate count than people who are familiar with the neighborhood and the people.

Also, for the first time in US history community stakeholders will be able to respond to the census on-line, which will be the preferred - though not only - way to participate. The ‘Digital Divide’ experienced by urban and rural hard to count communities will make it harder to avoid an undercount. Congress must fully fund 2020 Census operations to support all American communities and territories equitably.

“While the overall coverage of the census was exemplary, the traditional hard-to-count groups, like renters, were counted less well,” Groves said. “Because ethnic and racial minorities disproportionately live in hard-to-count circumstances, they too were undercounted relative to the majority population.”
-Former Census Director Groves (2010)
2020 CENSUS TIMELINE

US Census Operational Timeline

2013 - Research & Testing Phase
- Address Canvassing Test
  - Estimate on-the-ground workloads and define operations and systems needed for the census

2014
- Address Canvassing Test
  - Develop and award major contracts for the systems that will support the census

2015
- Hiring & Establishing Questionnaire Assistance Centers (QACs)
- Peak Operations
  - April 1st Census Day
  - December 31st Deliver Apportionment Counts

2016
- Data Publication
  - March 31st Complete delivering Redistricting summary files to all states (P.L.94-171)

2017
- Address Canvassing Operation
  - Put field infrastructure and offices in place throughout the country

2018
- End-to-End Census Test
  - Fall, 2018 Local Census Job Applications Open

2019
- On-the-ground address canvassing where necessary
By The Numbers

Population Increased by 150,000 since 2010

Race & Ethnicity Data

Total population: 4,684,333

Louisiana

2020

CENSUS

63% White

32.6% Black

5.2% Hispanic

0.9% Asian

0.9% Native Hawaiian

16 Large Federal Assistance Programs Distribute Funds on Basis of Decennial Census-Derived Statistics (FY 2015)

Total Program Obligations: $10,137,434,348
Per Capita: $2,291
In 2020, the US Census Bureau will implement new technology for the first time. Community Stakeholders will be able to respond by mail, phone as well as by way of the internet.

**FACTS**

**Peak operations: Mid March thru early May**
- Mid March 2020: Census count starts in Remote Alaska
- Materials mailed to most homes in 3 waves over ~7 days
- People can self-respond through July

20% of homes also get paper form in 1st mailing.

Telephone response option also available to all

80% of homes get letter inviting Internet response.

*Note:* Residents will receive a paper form eventually if they don't respond on-line or by phone.
The rhythmic pulse of the Census count is determined by US residents' participation in the decennial Census. Our electoral system is fueled by the result of the Census. When there is an undercount we have less resources flow through districts for sure, but we also see districts shrink thus there's less diverse representation. Undercounted communities also experience a loss of precincts and polling places. Maximizing the count means increasing potential to build political power by allowing all groups within our districts the ability to vote for and elect candidates of their choice.
The Federal government spends billions annually to support construction costs across the US. In 2007, $146 billion was spent maintaining highways, costs that included the building and operation of new highway infrastructure. Louisiana will receive over $600 million over the next decade to resource infrastructure projects. HTC communities can benefit greatly by participating in the count to ensure that facilities exist to support healthcare, economic development, roads, etc.
Federal Programs for Louisiana 'Community Benefits'

**Healthcare** = $8,176,054,794
- Supplemental Nutrition Assistance Program (SNAP) USDA Direct Pay House-holds $1,112,381,122
- National School Lunch Program USDA Grants States $203,753,199

- Section 8 Housing Assistance Payments Program (Project-based) HUD Direct Pay Owners $124,945,396
- Section 8 Housing Choice Vouchers HUD Direct Pay Owners $202,260,000

**Highway & Construction** = $690,967,804
- Highway Planning and Construction DOT
- Grants States $690,967,804

More than $10 billion in census-guided federal assistance distributed over decade
Census Advocacy ToolKit 4 HTC's

Census Jobs
- Census jobs create opportunities to allow community members to count those they may be familiar with in familiar settings.

Direct Advocacy
- Count Incarcerated Citizens where they are from, not where they are jailed. (More: NPR, PPI, CCMG)
- No Digital Divide: Fully fund the first electronic (online) Census
- Remove 'citizenship' question from Census form

Reports-Briefs/Videos
- Share "culturally competent" information about the census process to educate community stakeholders
- Sample Outreach Media

Locate Census Centers
- Document where Census Question Assistance Centers are located

Outreach/Events
- Host events in partnership with 2020 Census Partnership Specialists to raise awareness of benefits of census

ProActive Engagement Creates Better Outcomes for Hard to Count Communities

Complete Count Committees
- Establish Complete Count Committees with community partners, local elected officials, community leaders to monitor Census activities and ensure the best count possible.

Census Specialist Partnerships
- Apply to be a Partnership Specialist or Partner with the Census Bureau to gain access to materials and supplies to support events and campaigns.

2020 Census Jobs

Recruiting Assistant Positions

- Excellent Pay
- Flexible Hours
- Paid Training
- Temporary Positions

Are you up for the challenge?

Recruiting Assistants

Help us get the word out about 2020 Census jobs. Call on local
organizations to request assistance in providing information about jobs to
the people they serve. Answer questions from the public about jobs,
qualifications, and how to apply. Conduct formal and informal
presentations about 2020 Census jobs.

For more information visit:
